

VIRTUAL REQUIREMENTS GATHERING

4 areas to consider as you gather Business Requirements in a virtual work environment.

Things have changed for your **ORGANIZATION**.

Are your past requirements still relevant? Do they address any newly emerging needs?

Things have changed for your **CUSTOMERS**.

Are you addressing the need for online access points and portals for your customers?

Things have changed for your **TEAMS**.

Are your teams being engaged to document new needs and requirements?

Things have changed for your **PROCESSES**.

Are you embedding collaboration tools and features into your processes to optimize workflows?
